ABSTRACT OF THE DISCLOSURE

Disclosed herein is a new and distinct variety of Petunia plant having a decumbent habit and short stems. The Petunia plant has abundant branching, and a great profusion of blooms, the whole plant remaining in bloom for a considerable period of time. The flowers are single and small, the petals having vivid purple color. The inside color of the corolla throat is brilliant purple and the outside of the corolla tube is moderate purple. The plant exhibits high resistance to heat, cold, rain and disease.
